RALEIGH LETTER.

Hustler Bureau
Supreme Court Building
Raleigh, April 15, '07.

(Staff Correspondence.)

An important item which should have been referred to in my letter last week was the liberal contribution of the penitentiary directors to the general disbursement fund of the State Treasury department. The amount of this handsome gift was \$175,000 and comes from the surplus laid aside under the excellent management of the State's prison since the democrats assumed control in 1899. They found a large deficit at that time and the Legislature was forced to the necessity of issuing bonds to the extent of \$110,000 to meet obligations incurred by the Russell administration. The institution has been self-sustaining every year under democratic management and makes a great deal of money. The bonds have long since been paid and now the directors are contributing largely to the support of the State government annually. Only a few months ago they expended about \$7,000 in lawn walks and otherwise beautifying Capitol Square, such is the difference between democratic and republican rule in North Carolina. Who is foolish enough to predict that the people are drifting away from the party that has brought property out of adversity, or that we are willing to again surrender our affairs to a crowd like the republican party in this State has always proven itself to be? Can we ever so far forget the dark days experienced from 1895 to 1899 as to allow the enemies of good government another lease of power? No scandal has attached to any department to the state government under democratic rule and today no state in the country is governed so wisely and well as North Carolina. This should be a source of great pride to her people, whatever may be their creed or party affiliation. It is certainly a distinct pleasure to claim allegiance to the democratic party in the Old North State.

The last legislature was composed largely of patriotic North Carolinians as the final results of the things accomplished will fully attest. Inclusive of the numerous measures enacted for the public good, an act was passed having for its object the promotion of loyalty and greater respect for the sovereignty of the State. It provides that the State flag be given more prominence. The board of trustees, or managers of the several State institutions, and public buildings are required to provide a North Carolina flag, of such dimensions and material as they may deem best, and to display the same from a staff upon the top of each and every such building, at all times except during inclement weather, and upon the death of any state officer or any prominent citizen, the flag is to be at half-mast until the burial of such person shall have taken place. The board of commissioners of the several counties are likewise authorized to procure a North Carolina flag to be displayed upon the top, or draped behind the judge in each and every court-house in the state, especially shall said flag be flaunted to the breeze at every term of court held, and upon such other public occasions as the commissioners may deem proper. It was pointed out that there are thousands of citizens in the State who have never had an opportunity to view this emblem of their government and this unique method of affording them an opportunity to do so originated in the fertile imagination of Representative Koonce, of Onslow, to whom credit is due for the enactment of the law containing the provisions above recited. It is hoped that the commissioners of Henderson county will soon provide a handsome new flag of large dimensions and display the same from the beautiful dome of our splendid temple of justice for the benefit of patriotic citizens in the county who are not familiar with its varied colors and what they represent.

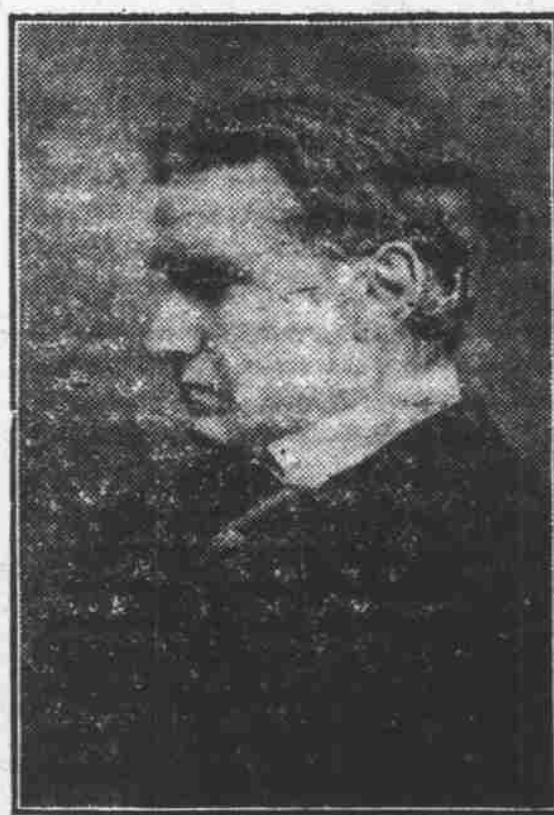

The amended pension law regarding Confederate soldiers and their widows provides annually, according to the degree of disability ascertained by the following grade, viz: First, to such as have received a wound which renders them totally incompetent to perform manual labor in the ordinary avocations of life, seventy-two dollars; second, to such as have lost a leg above the knee, or an arm above the elbow, sixty dollars; third, to such as have lost a foot or a leg below the knee, or a hand or arm below the elbow, or have a leg or arm rendered utterly useless by reason of a wound or permanent injury, forty-eight dollars; fourth, to such as have lost an eye, and to widows, and all other soldiers, who are now three fourths disabled from any cause to perform manual labor thirty dollars. If the taxes in any year shall be insufficient to pay the pensions, the State Treasurer is, by the act au-

thorized to pay the pensions out of the general fund in the treasury, provided that in no year shall the total amount paid for pensions exceed \$400,000. The law provides that the Auditor shall upon the warrant of the State Treasurer pay annually to every person who has been for twelve months immediately preceding his or her application been a bona fide resident of the State, and who is incapacitated for manual labor and was a soldier or a sailor in the service of the Confederate States of America during the war between the States, and to the widow of any such deceased officer, soldier or sailor, (provided the widow was married to the officer, soldier or sailor on or before the first day of April, 1865, and if she has married again must be a widow at the date of her application.) These pension warrants are to be distributed in the usual way heretofore provided, namely, through the office of Register of Deeds in each county.

Assistant Attorney General Hayden Clement, has completed his ruling on the question of conflicting acts of the recent Legislature referring to the salary of the Corporation Commissioners, in that the act equalizing salaries of State Officers specifies that no officer shall receive any compensation other than the amount named in said act fixing three thousand dollars as the salaries of the commissioners. As before stated, the machinery act, as heretofore, brings forward the item allowing five hundred dollars per year to each member of the Corporation Commission for services as State Tax Commissioners. The bill regulating the salaries of State Officers provides that members of the Corporation Commission shall receive a salary of three thousand dollars and no more. State Treasurer Lacy declined to pay the additional five hundred dollars and the matter was referred to the Asst. Attorney General for an opinion upon the question. Mr. Clement decides that this is a matter for judicial determination, as it is a bona fide claim against the State, the settlement of which cannot properly be determined by the Attorney General. He advises that a test case be agreed upon and that the controversy be referred, without action, to the Judge of the Superior Court of the Sixth Judicial District, and then appealed from his decision, if not satisfactory to the parties concerned, to the Supreme Court. He further advises that the additional salary claimed by the Corporation Commissioners be withheld until the matter is finally determined by the Supreme Court. It is generally conceded that Mr. Clement is entirely correct in his decision, inasmuch as questions of this character should, as he suggests be determined by the courts.

The special committee named by the General Assembly to purchase a silver service for the cruiser "North Carolina," held a meeting in this city last Thursday to consider bids from the leading jewelry firms of the State who were ready to submit propositions. The amount appropriated for the purpose named was \$5,000 and the matter of properly carrying the provisions of the act was placed in charge of a committee composed of the speaker and two members of the House and the president and one member of the Senate, Speaker Justice appointed Representatives Harris, of Wake, and Hankins, of Davidson. Lieutenant Governor Winston selected Senator John C. Drewery, of Wake. A number of offers were made to the committee at the meeting Thursday afternoon, but no decision was reached. A resolution was adopted requesting Governor Glenn to act with the Commission. Adjournment was taken subject to the call of the chairman and it was decided to hold the next meeting in Greensboro. While in the city Mr. Speaker Justice was asked by a News and Observer reporter if he had heard of any probability of split in the democratic party in his county, to which he replied: "If there is a single man in Guilford county who could, prior to the last election, be properly classed as a democrat, who has intimated that there will be any division in Guilford county between the democrats in the next election I haven't seen him or heard of him, and if there was such I think I would have heard of it." He made no further statement about this "bug-a-boo."

Evangelist T. T. Martin, who will be pleasantly remembered by many Hendersonville people, is conducting a great revival at the Baptist Tabernacle in this city. Large congregations flock to hear him and much interest is being manifested in his powerful exposition of the Scriptures. More than once he has referred to some incident which transpired during the meeting he held in Hendersonville.
